to me

Good evening sir, I'm Robin from ISE
This is my feedback for the speech craft program of 2018-2019

I personally feel that this speech craft program is a real inspiration to me and it has helped me a lot. From my childhood, I had interest to be a good public speaker and I had entered this session with a lot of stage fear and anxiety and then I began to attend the classes and they were very encouraging and supportive. With every guest speaker coming by, my fears were going away from me and I became a strong and a confident speaker. I would say that the speech craft program has really helped me a lot and has made me strong like a lion both on the inside and the outside.

Thank you sir

Suma Rani <sumarani1313@gmail.com>

to me

Hello sir,
This is my feedback about **8 week speech program**

Fearful soul to a bit confident person is what I am now. This is all because of speechcraft program which was conducted by SN raju sir

I am happy that I joined to this program so that I could improve my speaking skills and gain lots of information also...

I also got many tips as to how a speaker should speak in front of public

Each and every session was very much helpful. And I could see the proper change in me. In 1st session I was very nervous and couldn't speak a word. But for the next sessions I improved bit by bit. And for the 8th week I felt I was almost perfect and spoke with confidence.

I really wanted to thank sathvik sir who travelled all along and conducted this public speaking program.

And the table topics which were held in between were very useful..

Finally I could tell that this 8 weeks were very helpful and could gain confidence in me for the next speeches.....

I am very much thankful to you sir

This speech program was a good initiative, I really think that it has benefited me.

I had some knowledge, some information but i was not knowing how to express it properly.

This program has taught me how to present the knowledge or information in proper way.

This program was like a training session for me, sessions like stress interview, ppt presentations are definitely going to help me in future.

I really appreciate this type of program and hope to see more programs like this for us in future.

to me

Good evening sir, I'm Robin from ISE
This is my feedback for the speech craft program of 2018-2019

I personally feel that this speech craft program is a real inspiration to me and it has helped me a lot. From my childhood, I had interest to be a good public speaker and I had entered this session with a lot of stage fear and anxiety and then I began to attend the classes and they were very encouraging and supportive. With every guest speaker coming by, my fears were going away from me and I became a strong and a confident speaker. I would say that the speech craft program has really helped me a lot and has made me strong like a lion both on the inside and the outside.

Thank you sir

Suma Rani <sumarani1313@gmail.com>

to me

Hello sir,
This is my feedback about **8 week speech program**

Fearful soul to a bit confident person is what I am now. This is all because of speechcraft program which was conducted by SN raju sir

I am happy that I joined to this program so that I could improve my speaking skills and gain lots of information also...

I also got many tips as to how a speaker should speak in front of public

Each and every session was very much helpful. And I could see the proper change in me. In 1st session I was very nervous and couldn't speak a word. But for the next sessions I improved bit by bit. And for the 8th week I felt I was almost perfect and spoke with confidence.

I really wanted to thank sathvik sir who travelled all along and conducted this public speaking program.

And the table topics which were held in between were very useful..

Finally I could tell that this 8 weeks were very helpful and could gain confidence in me for the next speeches.....

I am very much thankful to you sir

Dear Mr. Ashith and team,

Greetings.

As we know that, we could not proceed with the committed training for our present 6th semester students. We have finished some part of the technical training.

General apti 10 days and Java for CSE and ISE, C++ for ECE to be completed before Aug 20th, 2020. We are planning to conduct it optimally without affecting the regular academics and summer exams. So, it is to inform you that we can start general apti 10 days pending one from 22.7.2020, wednesday for 3 batches now. One batch is writing summer exams, it can be planned later.

Java and C++ would be planned after the general apti training.

Points to be noted :

1. Students can not attend a day training thru online, kindly make it 3 hours per day/ batch
2. Allot quality trainers as discussed
3. Every day assessments must be uploaded to portal, so that students can practice after the class
4. Make sure that all the trainers will be involved and effectively teach, since it is an online class where a lot of efforts and concentration must be initiated

Note : batch list will be sent to you by Mr. Periyasamy asap.

Kindly share the schedule details and other requirements for the training.

Thanking you,
Dr Mamatha G

Respected Madam,

Greetings from Bizotic.

We request reference to the meeting held on 16th February 2020 with your kind self and Bhanu madam. We had committed to start the Aptitude training sessions immediately after the Technical training. However due to the pandemic, we could not complete the entire training on technical skills. Since the recruiters have already given guidance on starting the hiring process by the second week of September, it is very important that we train the students in Aptitude and Technical skills and make them placement ready.

As instructed by you, we will start the aptitude training for the batch of 2021 from Wednesday, the 22nd of July 2020. We will be sharing the complete details and instructions to the students over mail by tomorrow afternoon.

In the present circumstances, we have commenced online training classes for various colleges and Universities from the month of June 2020. We have already finished the online training for colleges such as **BNM Institute of Technology and KLS Gogte Institute of Technology for the 2021 batch**. The training for other institutions such as **PES University, Christ University, Presidency University, Alliance University, Vidyavardhaka College of Engineering, GSSS Institute of Engineering, IFIM College, etc.** among others is already ongoing.

In order to ensure the success of online training we have improvised on our delivery to ensure effectiveness of the new medium. Some of the key initiatives are listed as under:

- 1. We are conducting sessions for only 3 hours a day per batch. We are also ensuring the students turn on their video at all times during the training.**
- 2. All our trainers have undergone sessions on online training. The sessions covered each and every aspect of training such as voice modulation, content, delivery, effectiveness, etc.**
- 3. Along with the trainer, a supervisor is also nominated during training sessions to observe the behaviour/response of the students for their attentiveness.**
- 4. Students are constantly encouraged to ask questions during the sessions either by the way of speaking or posting their questions in the chat box. We are also monitoring the participation of the students in solving problems during aptitude sessions.**
- 5. During technical training sessions, students are made to share their screens while coding their programs for the trainer to monitor the participation of the students. After the students execute a code, they are required to take a screenshot and share it with the trainer via chat.**
- 6. Periodic assessments are conducted to monitor the performance of the students. The reports are shared with the Principal, HODs, Training and Placement Head and the Departmental Placement Coordinators.**

With the above SOPs in place, we assure you that the quality of delivery will be very effective.

As instructed by you, we will commence the aptitude training with 3 batches and the training for the 4th batch can be commenced at a later date. We also request you to plan and give us the tentative dates for the remaining 5 days of technical training in the month of August - post the completion of Aptitude training.

I have attached the copy of the proposal and MOU which was shared during the meeting held on 16th February 2020 for your kind reference. The proforma invoice for the Aptitude training program is also attached herewith.

Please feel free to contact me for any clarifications on the same.
